

Palmer Currie

Vancouver, BC | palmercurrie@gmail.com | palmercurrie.com | linkedin.com/in/palmercurrie

EDUCATION

University of British Columbia (UBC)

Vancouver, BC

Bachelor of Science (BSc.), Major in Computer Science | UBC Co-op Program

Sep. 2022 - Apr. 2027

- **Coursework:** Data Structures & Algorithms, Machine Learning, Relational Databases, Operating Systems, OOP

TECHNICAL SKILLS

Programming Languages: TypeScript/JavaScript, Java, Python, Go, SQL, HTML/CSS

Technologies and Frameworks: React/React Native, Kubernetes, Docker, AWS, ArgoCD, Angular, Spring Boot, Jest, JUnit, Google Firebase, Supabase, GitOps

Tools: Git, Jenkins, SQL Server, Figma, Adobe Suite (Photoshop, Premiere), Visual Studio

EXPERIENCE

Amazon Web Services (AWS | Elastic Kubernetes Service)

Vancouver, BC

Software Development Engineer Intern

May 2026 - Present

- Engineered a conformance suite that executes **300+** upstream **ArgoCD** e2e tests against an **EKS** patched binary
- Eliminated manual environment setup by building a self-provisioning **Go** package with **auto-healing** credentials
- Prevented production regressions by adapting the upstream test harness to validate real **multi-cluster** routing.
- Directed a **multi-cluster architecture** by authoring a design document evaluating trade-offs and success criteria
- Unblocked release cadences by executing a phased **CI/CD pipeline** rollout, securely gating future deployments.

Planview (formerly Tasktop)

Vancouver, BC

Software Engineer I Co-op

Jan. 2025 - Aug. 2025

- Led the migration of **50+** legacy **Angular** components to **React**, ensuring consistent UI across Planview products
- Built dynamic and reusable UI components in **React** and **TypeScript**, reducing user-reported latency by **30%**.
- Designed scalable backend services in **Java/Spring Boot**, supporting thousands of low-latency API requests.
- Increased product reliability through **TDD** with **Jest** and **JUnit** test suites, reducing production bugs by **25%**.
- Collaborated with **UI/UX** teams to translate **Figma** mockups into components, reducing turnaround by **40%**.

City of Vancouver

Vancouver, BC

Program Assistant II

Apr. 2024 - Present

- Coordinated program logistics and events, ensuring smooth setup and operations for **100+** participants.
- Introduced weekly team reviews, cutting incident frequency by **30%** and improving communication across staff.
- Oversaw community center facilities after hours, ensuring secure opening and closing building procedures.

PROJECTS

Pickwise Sports (pickwisesports.app) | *React Native, Python, XGBoost, FastAPI, PostgreSQL* Apr. 2025 - Present

- Created an **AI-powered** NBA insights app in **React Native**, delivering real-time predictions and player insights.
- Developed an **XGBoost** model in **Python** using NBA data, achieving **70%+ prediction accuracy** in outcomes
- Engineered a **FastAPI** backend automating data ingestion and prediction storage via cron **PostgreSQL** jobs.

AlgoBytes (algobytes.app) | *React Native, Supabase, Postgres*

Sep. 2024 - Apr. 2025

- Developed a Duolingo-style **React Native** app teaching **data structures and algorithms** on **iOS/Android**.
- Architected a **Supabase Postgres** schema enabling real-time quiz updates without redeployment.
- Created **100+** interactive algorithm questions (arrays, graphs, trees) to reinforce learning and boost engagement.

Messaging App (github.com/PalmerCurrie) | *React, JavaScript, Firebase*

Jul. 2024 - Sep. 2024

- Built a real-time messaging app in **React/JavaScript** supporting global and private chats.
- Implemented real-time sync via **Firebase Firestore** listeners, ensuring instant chat and notification updates.
- Added **Firebase Auth** with Google/email login, password resets, and personalized user profiles.

AWARDS

Ike Barber Transfer Scholarship

Jul. 2023

Arnie Zucker Community Leadership Award

Jun. 2022
